

# NSB 100FT *Blue Battery*™

Specifically designed for **unstable mains**

**Superior cyclic performance and fast recharge** for high potential **fuel savings** when used with hybrid gensets.

- Ideal for demanding environments with unstable AC power
- High modulus Polyphenylene Oxide (PPO) plastic materials designed to withstand extended elevated operating temperatures and maintain high battery compression essential for reliable operation
  - Non-halogenated, thermally sealed plastic casing and cover
  - Flame retardant (UL 94 V0) and LOI of at least 28%
- Operating temperature range -40°C to +65°C
- High cycling and superior fast recharge performance
- Modified electrochemistry for repeated outages
  - Optimized paste additives and grid alloy
  - Less reliance on full recharge following an outage
  - No need for regular overcharge factor
  - Capable of uncontrolled Partial State of Charge (uPSOC)\* operation without loss of capacity

\* For a detailed description of uPSOC, please see the *Blue Star Technology*™ section of the Telecom Application Manual
