

NORTHSTAR UPS BATTERY SOLUTIONS

NorthStar's Pure Lead UPS batteries, ideal for use with datacenters and applications where **downtime is not an option**.

- NorthStar Front Access cabinets are faster to service, safer to use, and easier to maintain
- Performance excels at high rates of discharge and recharge
- High energy density deliver more watts per cell, which can reduce footprint by 10%
- Higher temperature capabilities that allow increased operating temperatures and reduce electricity costs by more than 40%
- UL 1778 & UL 1989 and OSHPAD rated and approved.
- Longer life means less replacements and reduced operating costs of more than 20%
- 2 year shelf life at 25°C (77°F)
- Operating temperature range: -40°C to +65°C (-40°F to 149°F)
- 15 year float life at 20°C (68°F)
- EUROBAT design life definition: Long Life (12+ years)
- Advanced 3 stage terminal design to ensure leak-free operation - brass terminals provide maximum performance
- Flame retardant (UL 94 V0) and LOI of at least 28%

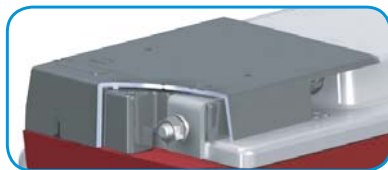

ADVANTAGES

Our solutions multiply battery lifetime and save you energy. This delivers significant savings in operator OPEX and CAPEX, due to fewer battery replacements and less frequent site visits. Other benefits include:

- Reduced environmental impact
- High safety standards
- Low maintenance design
- Premium construction materials
- Integrated BMS platform standard
- Integrated breakers and fuses
- Integrated data com available
- Wide range of cabinet colors

Front Terminal Adapter

NorthStar UPS products provide more energy in a smaller footprint , longer battery life , are faster to service and safer to use . Already dominant in the telecom market, front access cabinets are now experiencing an increasingly high demand in the UPS and power quality markets — and are slated to become the primary solution to these segments within the next few years.

Below is a front terminal sizing example, compared to a monoblock system.

Number of strings	Number of cabinets	UPS kVA			Overall dimensions of string			Weight (lbs/kg)
		250	500	750	Width (in/cm)	Depth (in/cm)	Height (in/cm)	
		UPS kW						
		240	480	720				
1	1	6.9			48/122	35/89	82/208	6240/2824
2	2	25.7	6.9		96/244	35/89	82/208	12480/5647
3	3	44	16	6.9	144/366	35/89	82/208	18720/8471
4	4	65.5	23.3	13	192/488	35/89	82/208	24960/11294
5	5	87.5	33.5	19.2	240/610	35/89	82/208	31200/14118

Based on NSB12-730RT, 480V, 1.67vpc, for runtimes over 25 minutes, 1.75vpc

Delivering reliable and sustainable power to the world.
